More than 7,000 of our neighbors are living with HIV. With your gift, we can provide daycare, preschool, and social services to more children and families affected by HIV.

hopehousememphis.org

Dear Friends of Hope House:

As the mother of four growing boys, I do anything I can to make sure my children are happy and healthy. One of the reasons I fell in love with Hope House is that the staff help bring the “happy and healthy” to every individual and family who walk through their doors. Since my first visit to Hope House in 2013, I have continued to learn about the daily struggles of those living with HIV and the positive impact that Hope House has on their lives.

This year, our theme is 1•2•3 Grow. During the past two years, Hope House has doubled the number of families and clients it serves. The wonderful staff, teachers, and social workers help more than 450 clients and yet, there are thousands of adults and children affected or infected by HIV who could benefit from Hope House services.

We still have more growing to do, and we need your help. Right now, we have space for eight more children, but we need additional financial investment in order to serve them. I urge you to donate any amount you can and see your gift in action. Come tour the houses and meet the sweet, smiling children at our preschool, as well as the loving, warm staff who make Hope House such a wonderful gift to our community and to the clients they serve.

Sarah J. Sutton
President, Hope House Board of Directors
BARRY, PUTTING DOWN ROOTS AND STANDING TALL

Everything I have today I owe to Hope House. They fed me when I was hungry, housed me when I was homeless, and counseled me when I was upset. They taught me that I could live a long time. I've learned how to set goals and reach them, like getting an apartment and keeping a job. I am taking care of myself physically and emotionally, Hope House has made me the man I have become.

JOCELYN, PLANTING THE SEEDS FOR AN EXCITING FUTURE

A year ago, I came to Hope House for a new mattress and what I got was a new life. The counseling lifted me out of my depression. Hope House helped me get my own home where I could raise my kids my way. My daughter has totally blossomed in the daycare program. With my newfound confidence, I earned a promotion and a raise at work. I paid off my car, and now I'm saving every month.

1•2•3 GROW
HOPE HOUSE IS IN ITS THIRD DECADE.

DECADE 1:
We lost parents to HIV/AIDS regularly, and the need for wrap-around social services became clear.

DECADE 2:
We developed a high-quality preschool education program that was nationally accredited, and we continued to expand our social services.

DECADE 3:
We have an abundance of social services to match the needs of the entire family and HIV community.

Memphis should be proud that Hope House continues to thrive and grow. Serving 33 children and more than 450 adults, we are the only organization meeting this high demand for services in our community. Because of community support and the improvements in care for people living with HIV, children and adults are living healthier and better lives.

There's more work to be done. With your help, we'll continue to grow through Decades 4, 5, and 6, reaching out to our more than 7,000 neighbors who are living with HIV and restoring their hope.

Thank you for your trust in Hope House.

With hope in our hearts,

Elizabeth Montegut Dupont, Ed.D.
Executive Director

“Everything just falls into place and is so much easier with Hope House.”

– Jocelyn
I've grown from being diagnosed with HIV and being scared, to having a job where I help people who have HIV overcome their fears to get the care they need. It's been a pretty amazing journey, and Hope House has been with me almost the entire time.

When you have HIV, your fear can isolate you. Don't let that fear keep you from something wonderful. I encourage people with HIV to take a chance and go to Hope House. I tell them to take advantage of all that Hope House has to offer – individual counseling, group counseling, life skills, job skills, housing, and childcare. In my experience, every class and support group have been beneficial. And, every service has made my life and the lives of my family members better. I wouldn't change anything about my Hope House experience.

Hope House gives people with HIV an opportunity to learn, grow, and bond. It's a safe place where people who have been stigmatized and marginalized can express themselves and be treated with compassion and respect.

In my job as a community health worker at Le Bonheur Children's Hospital, it's very rare that the HIV patients I work with have a need Hope House can't meet. Even when a need can't be met, Hope House has so many relationships in the community that the staff can find a resource for that patient.

Hope House inspires me daily in my work. I want to support HIV patients with the same respect and passion with which Hope House supported me. More than 7,000 of our Memphis neighbors have HIV. Between Le Bonheur and Hope House, I want to help reach them all.
KAWANZA AND JEREMIAH, CLIMBING HIGHER – TOGETHER

My child and I have both grown up at Hope House. My son Jeremiah has been in daycare here since he was two months old. He’s a sweet, gentle, and caring child.

I’ve grown up here, too. When I came to Hope House, I was struggling with my HIV diagnosis, my mother dying of cancer, postpartum depression, and the stress of raising my new son alone. I was overwhelmed. I knew that if I didn’t get help, I could lose my son.

The individual counseling and group therapy sessions helped me heal. Hope House provided me with a support network to get me through the rough times. Whenever I was in a bad situation mentally, I would call Hope House and someone was there to help.

Hope House provided me with the tools and encouragement I needed to become self-sufficient. Now I’ve got a great job working at the cheese counter at Kroger. I’m learning all about cheeses – hundreds of different cheeses – how to cut them, wrap them, and pair them. I have really good benefits, and I’ll soon qualify for tuition assistance. I plan to get my GED and then earn a degree.

When I’m at work, I never have to think about Jeremiah. I know he’s safe at the Hope House daycare. He has excellent teachers, and he’s learning what he needs to know to succeed. A lot of parents don’t have that, and I feel really fortunate.

I don’t want to live in poverty my whole life. Someday, Jeremiah and I will sponsor a Hope House family for Christmas because we know what it means to receive it. My focus is on staying healthy, getting an education, and giving Jeremiah the great life he deserves.
